SECTION 8 - HEALTH HAZARD DATA (CONT.)

Chronic Effects: None known

Emergency and First Aid Procedures

Eyes: Flush with large amounts of cold water for at least 15 minutes. Do not let victim rub eyes. If irritation develops, contact a physician immediately.

Skin: Wash affected area with soap and water. Do not reuse clothing soaked with this product until laundered.

Discard all leather articles which have been soaked with this product. If irritation develops, contact a physician.

Inhalation: If inhaled, move to fresh air. If victim has stopped breathing give artificial respiration, preferably, mouth to mouth. Contact a physician immediately.

Ingestion: Do not induce vomiting. If vomiting occurs spontaneously, keep head below the hips to prevent aspiration of material into the lungs. First aid not normally required. If uncomfortable, call physician.

SECTION 9 - PERSONAL PROTECTION INFORMATION

Respiratory Protection: If oil mists are generated, observe the OSHA exposure limit of 5 mg/m³. If workplace exposure limit is exceeded or operating temperatures are in excess of 390°F (199°C), use NIOSH approved respirator (either a disposable dust/mist mask breathing apparatus or supplied-air respirator depending upon conditions) for entry into confined space in the absence of proper environmental control.

Protective Gloves: Wear neoprene rubber gloves.

Eye Protection: Chemical goggles or a full face shield. Do not wear contact lenses.

Other Protective Wear: Wear impervious, protective clothing including rubber safety shoes to avoid prolonged or repeated skin contact.

Work Practices: Read label for instructions in use of product.

SECTION 10 - SPILL OR LEAK PROCEDURES

In Case of Spill: Do not allow spilled material to enter sewers or streams. Add dry material (such as diatomaceous earth, dry clay or sand) to absorb (if large spill, dike to contain). Using recommended protective equipment, pick up bulk of spill and containerize for recovery or disposal. Flush area with water to remove residues.

SECTION 11 - WASTE DISPOSAL METHODS

All recovered material should be packaged, labeled, transported and disposed or reclaimed in conformance with Good Engineering Practices. Comply with all applicable governmental regulations. Avoid land filling of liquids. Reclaim where possible.

The information in this material safety data sheet should be provided to all who use, handle, store, transport or are otherwise exposed to this product. We believe the information in this document to be reliable and up to date as of the date of publication, but makes no guarantee that it is.
