

Product Description

D-A Gate Valve Sealant is a 100% synthetic Gate Valve Sealant/Body Filler Grease. D-A Gate Valve Sealant is designed for use with expanding gate type valves with liquid and gas hydrocarbon service. It is formulated with inhibitors that provide excellent corrosive protection against harsh chemicals. This product is recommended for use in direct contact with both gaseous and liquid hydrocarbons and in applications where a hydrocarbon resistant leak proof sealant is required. D-A Gate Valve Sealant density is perfect for use with high pressure lubricators.

Typical Applications

Aliphatic Hydrocarbons	Organic Condensates
Alkalis	Petroleum Gases
Aqueous Solutions	Petroleum Liquids
Crude Oil	Salt Water
Dilute Acids	Water
Dilute Bases	

Typical Properties

Color	Brownish appearance, like smooth peanut butter
Consistency	Tacky
Usable Temperature Range, °F	0 - +300
°C	-18 - +149
Cone Penetration / ASTM D217 (bulk)	305 - 335
Shelf Life	1 year
Base Oil Type	Synthetic
Thickener	Inorganic
Dropping Point / ASTM D2265, °F	> +500

Package Size

400 lb. Drum; D-A Part Number 11812

PRODUCT AT A GLANCE

- 100% Synthetic
- Body Filler Grease
- Use with expanding gate type valves
- Corrosion protection
- Hydrocarbon resistant
- Leak proof
- Perfect for high pressure lubricators
